The NSW State Govt has a lot to answer here. Mike Baird was trying to reduce duplication & improve efficiencies bit Wyong who was in credit, merged with Gosford, who was in debt & by the time all the IT & Administrative items merged there was a huge cost involved. It's been a disaster & now the residents are being forced to pay increased rates. How is that fair? Coupled with lack of monitory control & checks, it's a complete failure. Pay the debt & start afresh with honest, reliable, and people interested in the area. Do not permit self interested people to take control. Demerge as the area is way too large to manage efficiently
