This rate rise on top of the recent Harmonisation will see small holdings with a 300% compound increase over a 5yr period. Without water or sewer the average household will be paying over \$2000 PA in a tier eleven council (11000 residents)...then another \$1500 for water and sewer(access only) \$3500 PA whilst nearby wagga (POPULATION 85000) residents pay just \$1600 PA in the CBD . This is an unfair burden on ratepayers directly attributed to the bungled merger which will never work with the distances between towns in the country....The cost of the mergers and associated rate rises will put many families to the wall and destroy towns and communitiesDemerge for the sake of country communities and keeping towns alive
