Subject: objection

Recent council attempts to garner 6.5% rate increase [after first trying to get anyone with an email address, possibly residing in the area, but not necessarily a rate payer to vote for a 9.5% increase, deservedly, has obviously been voted down in that plebiscite] now without any agreement from rate payers council plans to bulldoze ahead in order to garner, it hopes, ipart's agreement to excessive rate rises now and into the future. I firmly believe that both rate payers and renters will now and each year hereafter, remember council's actions.
