Subject: Randwick Council Special Variation Application s508A

I object to Councils questionnaire responses as being unfair & undemocratic.

5,605 responses from a total 50,000 ratepayers is a measly 11percent. Most for would be Council apparatchiks and Greenies. The written submissions with a 57% against is more believable, and is closer to the facts. A democratic compulsory vote would surely result in 70% or more against.

Council received a 20% rate increase in 2016. They should do what their ratepayers, and pensioners, do . Tighten their belts and live within their means!

I agree to my details being publicised
