Date of submission: Thursday, 22 February 2018

Submission: We, David & Jennifer Richardson, live at [REDACTED]. We wish to object to the CVC proposed Special Rate Variation of 25.97% plus CPI increases by 2021. This proposal has NOT been communicated to ratepayers but was discovered on their website by interested residents. The reasons for our objection is that Angourie appears to be "out of sight/out of mind" as far as Council is concerned. We have lived there for more than 15 years & have had only hassles when trying to work with Council on matters that impact us. Apart from a propensity to erect purile signage, Council has not consulted with ratepayers nor undertaken works to improve our lifestyles on matters under there control. We have no confidence that this situation will change even if they are successful in having the dramatic rate increase approved. Thank you for considering our objection in regard to this matter.
