Submission: I am a TPI Veteran. I live on a pension. I cannot afford such an excessive rate rise. As it would severely impact my budget. I just get by as it is. What with, mortgage, power, food and medications. I just manage to cover the standard yearly rise. Please don't allow this huge rate rise to be approved. I and many others in my area just can't afford it. There is enough pressure on me as it is. I do not need any more.

Thank you,

A grumpy, pained Veteran. :)
