Subject: Fit for the Future Proposals: City of Sydney

We write as residents of Pyrmont to oppose the forced amalgamation of Sydney City Council with Botany Bay, Randwick, Waverley and Woollahra. The SCC is a wonderfully successful council that listens to its local community and our concerns are :

- the close working partnership we have now with SCC will become non-existent because of the huge effort required to address the needs of 500,000+ people. Our voices will no longer be heard if this forced amalgamation goes ahead.
- we have more in common with our neighbours in Glebe and Ultimo rather than Botany Bay, Randwick, Waverley and Woollahra.
- the fact that this forced amalgamation will bring the population to over half a million people is totally unthinkable, unworkable and unacceptable.
- the cost of the amalgamation will be enormous as will the disruption to all services.

The Sydney City Council is already "Fit for the Future". Please don't spoil it!
