Submission: It's my home!! How would you like it if I just came in and threw chemicals and sewerage all over your front lawn? I put my dad's ashes there. So many people have got married, lost loved ones, Had their first surf there. Don't take that away from us. They took the trees and now the ocean. I'm begging you.. Please for our future DO NOT DUMP THERE!!! I know you probably will anyways due to the fact this probably means nothing to all you rich people, But for coasties and our flora and fauna it's our home! Our castle! Please don't turn our sea into Bondi.
