Submission: I am strongly AGAINST this increase as this council is waist full and incompetent. They should hire better staff and [REDACTED] that have no idea how to run projects. The Cook street plaza was a balls up from the start lots of money waisted but nobody has been held to account. They pay businesses on main street to do up their building (Use my rates so somebody else property can look better) but they can not even do up the walking path so that you can walk with out tripping. They do nothing to get new businesses to town and they refuse to approve new business developments. So before they take more money out of my pocket they maybe need to get their ducks in a row.

Lithgow council should really be put under administration as it is one big cock up after the other and we the people suffer as nothing is being delivered but charge me over [REDACTED] in rates every year.
