Submission: I have been a resident of Leichhardt Council area for almost 40 years and have been a beneficiary of Council's look after resident's policy with regular garbage collections etc, a good planning section and being kept informed of the multiple developments that are changing this area. Council works well and has done so for a while. They answer phone calls, deal with complaints and provide a good service. I can see no point in it becoming bigger. Bigger is not necessarily better as experience continually shows.
