Subject: Ipart Submission

I am lodging this email against the CVC rate rise. I have tried twice and written out two emails on your other option, only to have them fail twice.

This Council has overspent and overspent then they ask the ratepayer to bail them out...again. We can no longer afford to live in this Valley. We have tenants on leases tied to CPI, so have no ability to pass on increases of this proposed magnitude.

Therefore, our living standards, and value of our property is going backwards.

The fact that nearly all Councillors stated at election time that they would not vote for an SRV, then immediately voted for it, smacks of deceit of the first degree. There is no honour in politics today.

If you allow them to do this there will be no stopping them in the future.

Geoff and Denise Worrill
