Central Coast [REDACTED], [REDACTED] and the [REDACTED] presided over the largest debt in Australian local government history by way of activism and complete mismanagement yet we the rate payers have had to pick up the bill and have to accept lesser services. We have just had a massive rate hike that they are already requesting to be continued for at least seven more years, and now they want to hike the water prices. I can't afford a massive rate increase and water increase, my family can't afford it, my friends can't either. Why do we have to pay because [REDACTED] went out of their way to purposely derail the amalgamation to try to undermine the LNP? Wasted our money on Non essential rubbish to satisfy their extreme green agenda rather than doing their jobs.
