Your submission for this review:

I am objecting on paying a minimum annual charge for entitlements that are not able to be used these entitlements are inactive not metered can not be used sold or traded I regularly pay quarterly charges fixed and pass through charges I feel it is improper unfair and unjust to be made to pay a minimum charge on top of the quarterly charges of which I get no benefit from. I want IPART to remove these minimum charges on inactive accounts Thank you John Dunmore Deniliquin
