Your submission for this review:

It is absurd and extremely bad optics from Sydney Water to be proposing to increase utility costs considering the current cost of living crisis we are in. STOP PROFITEERING. I have a good income but cannot afford to live at the moment and any further, unfair and unwarranted costs increases should definitely not be permitted. Australians need big business to stop only thinking of shareholders as this is what is driving inflation- corporate greed at its finest and good, hardworking people are the ones having to pay for such greed, which is extremely unfair.
