

to the chairman

Mr Pete Boscall

Dear Sir

25-6-17.

I am writing to you out of deep concern of the large rate rise the Council now state we have to have no matter what. The general manager Mr. John Handford was to have said, we need the money and we don't care hang the status of the rate payers.

Great Lakes Council has merged into two other Councils it is now Mid Coast Council. Over the last few years G.L.C. received numerous increases well above the C.P.I.

Our area is mainly pensioners & low income people. This should be looked into and not allowed. An increase of 28% 11% the first year. Please look into

2.

This was against government policy
with councils that merged that
they were not allowed left votes for
4 years. Why should this council
be any different?

hoping you can look into this
please & sort it out for us.

"Thanks you"

yours Faithfully
John Legg
Patricia Legge.
