Submission:

I would like to lodge my objection by my council, Warringah Council, in seeking approval for a Special Variation to increase our rates. For people like me on a fixed income coping with the yearly increase in rates which is usually the CPI figure is one thing, not to mention all the other utility pricing increases. To now have our council seeking an increase double the CPI figure is appalling. Improvements are all well and good if the money is readily available and clearly the extra money is not available. I think our current level of council service is just fine. I am not a money tree and strongly oppose any Special Variation.

Thank you.
