Your submission for this review:

Hi Thanks for the opportunity to submit , my small pump lic has been paid for many years about \$ 60.00 which was great, but the price increasing the last few years has made it hard for me as I only use it only rarely , to pump up water into tank for bush fire purposes , also the local fire brigade appreciate it, for their use if needed . 2020 year over 1000 homes were lost in this area, we also have a few orange trees and small garden as I my am retired from growing produce now . I would like to keep my license for these reasons , so a price increases for me is very difficult . Thanks John Thompson mob [REDACTED]
