34% sewer increase and we are still on septic tanks here in Macmasters! Get a grip CCC these Sewer and water rate rises are not on! and certainly not away out of your debt hole. Stop taxing the public for your mistakes. Stop wasting money wrapping benches in orange plastic and overkill safety compliance in children's parks! Start looking at the complete mess our road system is in. As you can probably tell, I am very much against these rate rises and speak for all of our lovely CCC community.
