Your submission for this review:

My name is James Wheeler. I am a resident of Hawkesbury city Council area. I live at [REDACTED]. I am writing in regards to the review. Sydney Water is taking in acquiring Hawkesbury city Council water assets. If Sydney water extends it wastewater services to the Hawkesbury City Council area in the future I would prefer that the cost Of extending the waste water services be shared among all of Sydney Waters customers this is fair and equitable solution that does not financially disadvantage. Hawkesbury customers. To ring fence cost HCC residents is unfair. Other factors that should be considered besides bills is that it is important for sending water to take over. HCCs waste water assets to make the system fair for everyone living in the Sydney metropolitan area upgrading these assets would exceed the current customers capacity to pay and shouldnt be their responsibility entirely as the wider community will benefit from these upgrades to improve water quality in the Hawkesbury River. Sydney. Water will be better equipped to manage these assets going forward which will be better for the environment and for customers long-term.
