Subject: Amalgamation of councils

I absolutely object to the creation of a mega council with a population the size of Tasmania. Recent surveys show 80% of residents and 70% of businesses do not want this type of amalgamation. The amalgamations in other states have shown no benefits. The amount of our rate payers money to make these changes which will provide no benefit to we the residents seems appalling. Not even taking into account how long it will take during which time very little council business which benefits the rate payers will take place.

Please listen to the people who live in these areas and pay the rates.

My family are extremely happy with the service from the City of Sydney Council

Yours faithfully
Jann Zintgraff
