Date of submission: Wednesday, 6 March 2019

Submission: As a rate payer in this district, I oppose the suggested rate rise put forward by the council.

I dont believe that the funds raised will benefit myself or family.

It will be a struggle to find the funds and this will have a negative impact on our family.

I have listened the councillors reasons for the proposed rise and I am firmly against it , and will be voting to show this in the up coming elections.
