I strenuously oppose the current srv application. The current council administration has not demonstrated any level of fiscal responsibility. CPI ,LPI and wage growth have not exceeded 2.3% yet rates have increased up to 100% over the 4 year period with zero improvements in services. And now an application for an SRV of between 22 and 53 %.Coupled with drought conditions and local businesses closing the majority of the ratepayers are not in a position to absorb massively increased costs. The mean age of this community also demonstrates a significant aged population whose mental health is increasing in jeopardy due to concerns over abilities to pay exorbitant rates or put food on the table or afford basic amenities such as medication or services. The CGRC should be subjected to a complete audit to determine the state of the irregularities including by OLG for breaches of policy and due diligence.
