Submission: Great Lakes council want a rate rise. Well how about it be managed properly to start with. I timed 3 council workers take 2hrs to plant one shrub/tree. The amount of council people you see around watching doing bugger all is ridiclulous!!! Jobs in council are jobs for the boys!!! Zero work ethic though. Go away council be pro active and sort the shit, job taken for granted attitude amongst the council and not strip money out of residences for poor lack luster , under delivering and under achieving performance being given to the community.
