Dear Ipart Please dont increase our water sewer & stormwater prices any higher on the central coast. In my area of Umina Beach, [REDACTED], we have no storm water or guttering & we do not need ut. Everything works fine the way it is. No expensive infrastructure is needed. The water quality is always good, not brown or smelly. I think council shouldn't waste money fixing s/thing thats not broken & we are not willing to pay any increase. Thank you
