Subject: Info Kyogle council

Hi

Could you please pass my email on to the appropriate people regarding councils.

My name is C little I live in the Kyogle council area. I have owned a property in the Kyogle council area for 14 years and live in the area all my life. I have been communicating with Kyogle council over the last 2 to 3 about the unprofessional operation of the council and as you may expect people who can't do there job won't listen. I have evidence that Kyogle council can't be sustainable and I have a file on computer that I can and will send to you proving that they can't be sustainable so I can't see how IPART can deem them sustainable in any way. 1, the area is to large and there is not enough rate payers to cover the costs for works, just look at the Kyogle local Government area. 2, roads aren't being fixed correctly and I can prove it with photos. 3, people in council can not carry out their jobs as required regarding management of funds. 4, money is being wasted left right and centre which I can prove. I will phone IPART to follow up on my email about the issue and answer any question and provide proof of my concerns. The best out come for all rate payers is that the kyogle council amalgamate before they waste any more of OUR/MY money. If you would like to contact me for more information you can phone me on [REDACTED]. Roads have been patched and 3 days later the hole is back it is becoming ridicules. There have been complaints made to the State government about Kyogle that you can check.

I look forward to your response on the serious matter at hand.

Regards Mr Little.
