Subject: Against Amalgamation of Canada Bay Council with Auburn and Burwood Councils

Objection to Proposal

I cannot believe that the Canada Bay Council would consider merging with an area such as Auburn. The Auburn Council area is so diversely different from Concord. It is socio-economically disadvantaged area. It is one of the most populated areas in the whole of Sydney with a huge percentage of its population prepared to live off social benefits. Families in many instances are large which magnifies the situation even more. Canada Bay is a high value area while Auburn is not. There has been an increase in more high rise in that area which may result in an even higher population and also an increase in less desirable attributes. Concord is a beautiful parkland area which I fear will change radically and not to the betterment of the people who already live in this area for what it offers.

I am not in favour of merging with Auburn and Burwood. I strongly object.

Yours faithfully
Mardi Teer
