Your submission for this review:

Questions to stakeholders. 1 Financial, particular to meet insurance requirements of the department. Insurance payments on cars and home. Current stipend, a huge % goes to insurance premium. An out of home insurance govt shop with lower premiums would solve this. At the moment, "it's the carers problem" to squeeze everything out of the stipend to meet regulation. After that there is the food utilities transport etc etc. 2 The system is failing children leaving controlled environment after they turn 18. Children are prepared and encouraged to reach this milestone in their oohc journey only to fall off a cliff once they leave (not all cases). Spend more time ensuring the child has a career or uni course to pursue immediately. Work more on the carer child pathway into the future along side the child's solo journey into the future.
