Your submission for this review:

Dear Sir/madame, The proposed increases do not take into consideration the financial implications for rate payers, given the average earnings of rate payers in the area. Secondly it does not consider the maleficent nature of councillors/administrators currently applying for the increase. [REDACTED] have been sent to rate payers and to community organisations to support this rise in lieu of losing funding for projects already budgeted for. The initiation of this increase will detrimentally affect all those in the catchment.
