Your submission for this review:

If Sydney Water extends its wastewater services to Hawkesbury City Council area in future, the additional cost should be shared amongst all of Sydney Water's customers and not ringfenced to only Hawkesbury customers, which would financially disadvantage customers in the Hawkesbury area. I believe it is important for Sydney Water to take over HCC wastewater assets to ensure the system is managed appropriately and is fair to everyone in the Sydney metro area. The wider community will benefit from system upgrades through improved water quality in the Hawkesbury River which is used widely by the broader Sydney community for fishing and recreation.
