My name is [REDACTED] I am a resident of Hawkesbury City Council. I live [REDACTED]. I am writing in regards to the issue is Sydney water taking over the water supply from HCC. I would prefer that the cost of extending Sydney Waters waste water services to the Hawkesbury area be shared among all of Sydney Waters customers. This is a fair and equitable solution and does not financially disadvantage. Hawkesbury customers. Besides bill impacts other factors it should be considered is that is important for Sydney Water to take over Hawkesbury city Councils waste water assets to make the system fair for everyone living in the Sydney metropolitan area. Upgrading these assets would exceed the current customers capacity to pay and shouldnt be their responsibility entirely. The wider community will benefit from these upgrades through improved water quality in the Hawkesbury River. Sydney water will be better equipped to manage these assets going forward which will be better for the environment and for customers.
