Water should be free and yet we are locked in via a service charge for the usage on top of what we use monthly/quarterly etc
Not sure if the service fee is standard for all suburbs but the rate is sufficient considering there are new residential areas been developed all over the states along with commercial business how much more profit is required for Sydney water to stay above when we the owners pay for the usage and no discounts offered, and let's not forget the cost of living. Voting against an increase
