I am a self funded retiree but only because my super fund pays me \$50 a week more than the Gov pension. I get none absolutely nothing from the government by way of benefits. My recent council rates increase plus another water rates rise will force me out of my 35 year family home because I just cannot afford another rate rise. I can just feed myself and I never put a heater on soon I won't even be washing my cloths at home I'll take them down to the local creek. Another water rate rise is simply unjustified especially when the government has just announced another tax hit on super funds.
