Submission: Our Strathfield has a true sense of community and I don't want that to disappear. Our council is efficiently run & our rates have always been reasonable without cutting services. Being amalgamated with other councils who have much higher rates & are not as efficient as Strathfield would be very detrimental to Strathfields residents. Larger municipalities is not better. We would not be fairly represented & would lose our identity and pay higher rates.

I am strongly against Strathfield being amalgamated with any other council and can find no benefit at all.
