Submission: I have lived in Leichhardt council area for more than 10 years and have satisfaction at the level and quality of service provided by the council.

I strongly support the councils position to oppose the amalgamation with other councils.

There are strong community bonds and strong sense of identity in my neighbourhood.

We have good access to councillors and feel we have a voice in what is happening in the area.

The above aspects are two key reasons why my family enjoys living in Rozelle. I feel these will be significantly diminished by an amalgamation with other councils. I am therefore against a forced amalgamation and support Leichhardt Councils proposal.
