Submission: Most rates payers would prefer you look in your own backyard and start making cost cutting exercises there!! I begrudge having increases when it should start with looking at how you manage OUR money in the first place, everyone knows that local council has plenty of areas they could save the money your asking us to pay. 1.Over staffed 2. Sir lunchalots 3. Turn over of vehicles ( way to early) 4. Why don't you consider for the next three years a pay freeze, then we'll chip in for the following three years. 5. Common knowledge that Blue Mountains is one of the most dysfunctional councils in NSW so pick up your game to justify an increase
