Your submission for this review:

I live in a Caravan park in NSW, it is an R(LL)C park. However, not all residents in the park have R(LL)C contracts, our contracts precede the park becoming an R(LL)C park. We are classified as an embedded community. The park operator at times has charged us different rates to the IPART determination. Would it be possible to have all permanent residents in caravan parks covered by the IPART determination in regard to electricity charges.
