Your submission for this review:

Dear IPART When comparing energy suppliers on the <https://www.energymadeeasy.gov.au/> it is too hard to compare easily as the PDF upload does not work, cause the PDF bills the energy suppliers send are protected and don't upload well. So we need to key in the details. This needs fixing. Smart meter cost us more, I have resisted and held out, but I was forced The price for solar feedback to grid is a joke, they keep dropping the prices IPART needs smart people monitoring this and not rubber stampers who want a better job or promotion by agreeing to gouge suppliers, same for water. The IPART review of central Coast Council is a rubber stamp farce, you pretend to care an them dont- Thank you
