To whom it may concern

We have lived in Urunga for 10 yrs, when we first came here the council graded our dirt road every year or two which was fine.

The council however hasn't been anywhere near to FIX our road in years despite repeated letters complaining about the state of it. It's gotten to the stage now it's dangerous dodging oncoming car as we are all trying to go around the potholes.

We have one corner that fills up and is quite deep when it rains as you may know is often in this part of the world.

I hate paying our rates as we get NOTHING in return and I mean nothing, so for a 20% rate rise NO a big, you've got to be joking.

Thanks and kind regards  
Susan Davis
