Subject: Submission to IPART with regard to Clarence Valley Council's SRV

To Whom it may concern

Submission to IPART with regard to Clarence Valley Council's SRV

As a pensioner and rate payer I am very concerned about the Clarence Valley Council's proposed 37% rates rise.  
The People of the Clarence can Not afford this Council's proposed 37% Rates Rise

There is no real justification in regard to the enormity of this rise given the wastage in this Council spending.  
An example is the constant usage of professionals and consultants when the expertise is already employed by the council.  
There should instead be an independent commission that looks into and fully audits the council's financial records

Yours Sincerely

Sally Rogers
