Subject: absurd rate increase by Shoalhaven city council

Sent from Mail for Windows 10

Shoalhaven Council has a proposed rates increase (28% over 2 years) before IPART. The increase is WAY beyond and pensioners income and totally ridiculous. Better money management on their behalf would be more suited.

Pensioners such as me have not seen any \$2 increases for a couple years now. If I was in my previous employment and made an increase like this we would be out of business as users would NOT pay. Also I believe Shoalhaven Council have an extremely healthy surplus (some millions I believe) We ask for a rejection.

Regards

Tony Pepler
