Submission: I am writing to complain about the grand ideas of Coffs Council, and the inability of some of the lowest paid workers in nsw to afford them. We have developed the best sporting field in nsw, costing millions. They are going full steam ahead to build tourist facilities at coffs harbour jetty, an area that is full every of people every week end at present. We subsidize sydney rugby league teams to come up to a resort and train in the area. To maintain what they have at present is a problem for them. Some of bushlands reserves that are now half mowed and have bush care groups working in them, could have some areas removed from mowing. By far the majority of people do not want this rate rise, some want better service at no cost to them selves, but the majority realize that the water, rubbish and all other essential services are affordable. I ask that you not allow this rise. c. england.
