Your submission for this review:

So once again ratepayers are to be slugged excessively for Central Coast Council's gross [REDACTED] and [REDACTED] use of ratepayers money. Despite numerous submissions against unfair rate increases which fell on deaf ears, we are again asked for submissions against unfair water rate increases. These are outrageous at 34% and should not be allowed as people are already struggling to meet bills and council charges are already overpriced for the services we receive. Such price increases in any services would be deemed excessive and council's inability to find savings in other areas and reduce it's still over bloated workforce has been a joke. So the easy option is to slug ratepayers yet again! Come on iPart do the right thing by the ratepayers and reject this obscene grab for money by council.
