IPART should not approve this price increase as it amounts to giving a [REDACTED] more [REDACTED] on the promise they stop taking [REDACTED]. THIS COUNCIL WASTES MONEY. Giving them more will not solve this problem (it will make it worse). Council need to learn how to operate more efficiency with what they have. I actually cannot believe IPART are even considering this increase when it was rejected just a few years ago. Please do the right thing by the largely silent ratepayers and reject this increase.
