Submission: In my opinion the City of Sydney is currently “Fit for the Future” and should not be amalgamated with neighbouring councils.

Having lived through the forced amalgamation of South Sydney Council with the City of Sydney I am aware of the disruption and costs of forced amalgamation.

It seems to me that the City of Sydney is of a viable size. The City of Sydney has in the past 10 years provide good, corruption free, efficient and environmentally sustainable services to its residents and ratepayers.

I understand that apart from being environmentally sustainable, the City of Sydney is also economically sustainable. Over the past 10 years the City of Sydney has been innovative and transparent in its governance.

No amalgamation should be forced on the City of Sydney.
