Submission: I would like to strongly disagree with my local council applying for a SRV,my reasons are as follows:

Council has lost millions of dollars in revenue from mismanagement of 2 of their local facilities,namely Treescapes and Thou Walla the latter one had a manager who mismanaged the funds and did not make the revenue he estimated on his tender and as far as the public is aware nothing has been done to rectify it. Treescapes has also been mismanaged and millions lost there as well.

Lagoons estate has cost council millions in legal fees and compensation when they were offered a comprmise by the owner years ago and they chose to pursue it.

I feel that this council is not capable of managing the funds they have without waste infastructure is so far behind I think they need an administrator in there to see why they can't manage the substanscial rates they bring in.

I know I can't afford 66% rates increase at the end of 7 years and am sure most of the elderly population would be in the same position.

I reall hope you do not approve this rise as it will have a detremental affect on a lot of residents

Regards

Robyn Williams
