As Cattai Hills Environment Network we seek that any increase in funding to Sydney Water should also see an increase in funding for waterway health. The Hawkesbury Nepean does not have a catchment group like Parramatta, Georges and Cooks and desperately needs one. A public annual health report for the Hawkesbury Nepean river systems is a priority. Platypus conservation across the Hawkesbury Nepean, with Boundary Creek Penrith restored for platypus. Rights of the river supported with First Nations groups being undertaken by [REDACTED] Greater Sydney Local Land Services.
