Submission: My wife and I endorsed the City of Sydney's submission that we are already "fit for the future" and should not be amalgamated. I have spoken with many residents in our building and we think the Liberal Government's proposal is a sham. We have some 384 apartments of which 130 are owner occupiers and we are strongly against the amalgamation.

Having been a Liberal voter for some 40 years I am now ashamed of the party that I admired. The recent corruption in the city by Liberal members, especially PMs like Thomas George who has abused inner city living because he operated illegal serviced apts in a residential building, has made me fight against my home political party.

We will strongly vote against this move.
