RE: Review of Rate Peg Methodology – Issues Paper

Thankyou for the opportunity to provide a submission on the IPART Review of Rate Peg Methodology – Issues Paper.

Singleton Council is fully supportive of the submission provided in response to the above issue paper by the United Services Union, Rate capping in New South Wales Local Government: Addressing the Questions Raised in the IPART (2022) *Review of Rate Peg Methodology: Issues Paper* and Further Recommendations for Improvement as prepared by Emeritus Professor Brian Dollery.

Council is also fully supportive of previous submissions relating to rate pegging by the Local Government New South Wales, and the Local Government Professionals Association.

Council would appreciate any other opportunities to provide feedback into the reform of not only the Rate Peg Methodology but the wider Rating Reform agenda for NSW Council's.

Regards

Mark Wiblen
