Submission: Strathfield Council's submission addresses possible boundary change proposed by Parramatta Council affecting Strathfield Council land.

**PARRAMATTA COUNCIL FIT FOR THE FUTURE SUBMISSION
COMMENTS REGARDING THE PROPOSAL TO ALTER STRATHFIELD COUNCIL
BOUNDARIES**

31 July 2015

Parramatta Council has proposed a plan to develop a global city council in the west or second CBD, which merges a number of councils and alters the boundaries of other councils. It appears that this proposal may include a section of Strathfield Council as Council has land 'located west of Homebush Bay Drive'.

However, the proposal lacks any clarity in the documentation such as a map. Therefore, it is difficult to provide detailed comments on the proposal when the extent of the boundary change is unclear.

Council does not support proposals for boundary changes and transfer of land located in the Strathfield Council area. Council has consulted widely with its community in the Fit for the Future process and the community is highly supportive of Strathfield Council within its existing council boundaries.
