Your submission for this review:

As a local resident of The Hills Shire Council, I reject the submission to raise rates. This is a complete lack of understanding and knowledge of their local area and what the residents require. The council has not done their due diligence and put forth this submission to the residents prior to applying for this special variance. The council are not fulfilling their requirements as a governing body and maintaining community facilities and have now run the Hills into the ground with choked roads and a tarnished reputation.
